The video requirements are: Completion of all ten levels <b>or the tenth level to specified checkpoint</b> should be captured on video, lasting about one minute.                                      |

5.7 Rules for International Contestants-

Task action (3 points)

Contestants should design the device so it completes a task and goes on to perform another action. Score 3 points. (Contestants should start the “Mission Objective” after ball out or at the same time. Please note that the Objective Mission cannot be completed before ball out.)
